One event | two experiences
One event management platform

An intelligent platform for managing your in-person and virtual experiences.

Eventsforce helps you run successful hybrid meetings and events that are engaging and personal. Reach out to more people, blend virtual and on-site experiences, and manage all of your event attendees on one platform.

FEATURES

- Registration & group ticketing
- Virtual event platform
- Event apps
- Real-time reporting

- Smart matchmaking
- Exhibitors & sponsors
- Contactless check-in & badging
- Real-time analytics & reporting

Get Your Hybrid Events with Future-Proof Technology

- **Manage and promote your virtual, in-person, and hybrid events on one platform with the flexibility you need —** Use powerful registration and group ticketing tools built to manage hybrid event attendees

- **Make last-minute changes on the go —** Automatic syncing on apps and the VCD virtual event platform ensure all attendees get all the latest event info

- **Personalise the event experience for both audiences —** From separate invitation, registration journeys, and pricing and promotions

- **Host mixed sessions or build separate programs for your virtual and in-person attendees —** You decide who has access to what

- **On-site and virtual attendees** can participate in the same polls and Q&As

- **Bring your two audiences together** through intelligent matchmaking and meeting tools

- **Create more blended engagement opportunities** for sponsors and exhibitors with networking, advertising, and on-demand content

- **Grow your events and improve decision-making —** Track key metrics in real time and create reports on all your virtual and on-site attendees

Get More Value from Your Technology Investment

Onboarding & training — Our team of experienced event professionals will provide step-by-step guidance and training to help set up your hybrid event and get the most out of your Eventsforce investment.

First-class support — Our friendly support team is always ready to help! With a two minute average response time, we consistently smash industry ratings for customer support each year.

Data security & compliance — Eventsforce helps you meet the stringent data security and regulatory requirements of your IT, legal, and finance teams— including SSO, PCI DSS, and EU GDPR.

"

The Eventsforce platform was so easy to set up; we were able to launch our event and start selling tickets in no time! Our 500+ attendees loved how simple registration and check-in was compared to other years — it was quick, seamless, and had all of the information they needed."
